VISIT OUR SHOWROOM

Our factory produces exercise machines for fitness, leisure,
restorative medicine, senior business, care providers, since 2002

FROM OUR FACTORY

More than
1500 clients all
over the world.

Very high quality
and reliability
of our equipment.

Competitive prices
for professional
equipment.

Set of Toning Tables (from 6 to 8)

Exclusive line

Equipment show high efficiency
without exhausting workouts!
No unnecessary and harmful strain on
spin, joints and cardiovascular system.
Easy to operate, compact
and economical.

GOOD FOR:

rehabilitation
program

care
providers

trainings for
senior people

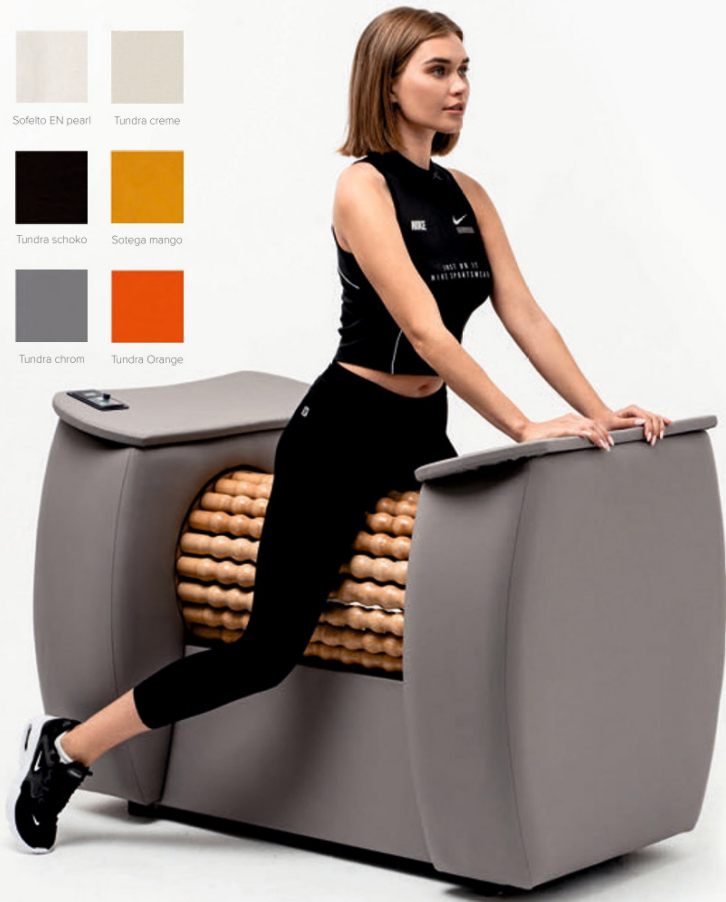

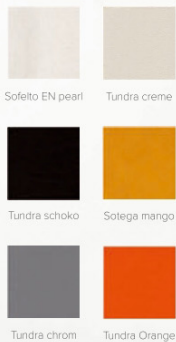

Exercising on the toning tables contributes to the restoration of motor functions, strengthens muscles, permits to normalize weight and build a slim figure without exhausting workouts.

The operating principle of toning tables is based on recurring movements of the movable part of the table, which drives the muscles of different parts of the body, causing certain joints to work. The fixed part of the table is used as a support.

All exercises are carried out in a sitting or lying position, which makes it possible to avoid a negative impact on the spine.

Different toning tables are used for different muscles for training or relaxing abdominal muscles, thighs and buttocks, back, loins and oblique abdominal muscles, thoracic girdle, abductors and adductors of thighs, for stretching. Special toning tables with a massage function are also included.

Standart line is the best for home use.

ROLLER MASSAGER BEAUTYROLL

Stimulate lymph circulation.
It is a preventive lymphatic drainage massage of legs,
arms, buttocks, neck, abdomen and waist
as well as other parts of the body.

This rolling machine is designed preventive lymphatic drainage massage of legs, arms, buttocks, neck, abdomen and waist as well as other parts of the body.

Due to the special shape of the rollers, the massaging drum easily copes with cellulitis, breaks down subcutaneous fat deposits, improves skin tone, rejuvenates it and makes it more toned up.

Following the training programs preinstalled on the exercise machine, you can achieve excellent results in weight correction, get rid of cellulitis or quickly restore the figure after childbirth.

The effect is felt after the first workouts the body senses a pleasant relaxation and lightness as if it were professional massage therapy.

GOOD FOR:

fitness clubs

aesthetic centers

wellness, spa, zones

rehabilitation centers

VACUUM EXERCISE MACHINE

An innovative approach is to place the elliptical exercise machine in a special sealed capsule where a reduced pressure is developed. The person working out on the exercise machine is inside the capsule to the waist. A special sealing skirt made of neoprene separates the persons lower body part located in the capsule from the upper body part located outside when the person trains on the exercise machine.

GOOD FOR:

fitness and
sport clubs

wellness or
mono studios

WITH A TREADMILL OR AN ELLIPTIC INSIDE EXCLUSIVE LINE

The principle of this revolutionary product is based on a combination of moving in a vacuum chamber that ensures a better blood circulation of the tissue at the buttocks, abdomen and legs, where there is normally less blood circulation.

The experience of using vacuum exercise machines confirms the higher efficiency of burning fats compared to workouts on exercise machines without vacuum capsule. Due to reduced pressure, which increases the flow of blood saturated with oxygen to the muscle tissues during workouts, the fat interlayer reduces, the muscle tone increases, wastes are excreted, as a result measurements of the waist, thighs, buttocks and other problem areas are reduced.

CYCLING MACHINE WITH A BALL

Basic, cardio and strength workout are held simultaneously, which saves the time of clients, coaches and the club.

The fitball is designed to increase the effectiveness of workouts and make them comfortable. The fitball (stability ball) strengthens the main muscles of the abdomen, back, thighs and leads to improved balance, breathing, posture and involves a greater number of muscles at the same time to increase further the heart rate.

Movable handrails help to strengthen the upper body.

All the muscles of the lower body are intensively involved at the same time.

GOOD FOR:

fitness and
sport clubs

wellness or
mono studios

BALANCE PLATFORM

Balance platform is a simple, effective way to train dynamic stability. It can significantly improve coordination as well as effectively work out deep and hard-to-reach muscle groups.

GOOD FOR:

fitness and
sport clubs

care
providers

restorative
medicine centers

CONFORMITY CERTIFICATE

No. 191299107

Manufacturer: Individual entrepreneur Vladimír Vladimirovič Horych
 St. Petersburg, Rosenstein street 21
 190066, Russia

Product: Rolling Exercise Machine Heavy Roll

Type: Exclusive, Prof. Standard

This conformity certificate confirms the conformity of the product with essential safety requirements of the following ECEU New Approach Directives as amended:

2014/35/EU Low Voltage Directive
 2014/30/EU Electromagnetic Compatibility Directive

European harmonized standards used for the conformity assessment:

EN 60335-1:2012/AC:2014/A11:2014	EN 61000-3-2:2014
EN 55014-1:2006/A1:2006/A2:2011	EN 61000-3-3:2013
EN 55014-2:2015	

The certificate has been issued on the basis of the tests of the product type sample. The results are recorded in the Conformity assessment report No. 190500008/3 dated 21.05.2019

CE mark can be used only in the case of conformity assessment according to all relevant ECEU Directives

This certificate is issued under the following conditions:

- The certificate applies to the product type and its variants specified in the above mentioned Conformity Assessment report.
- The production process/history production control is not covered by this certificate.
- The certificate does not imply that the certification body has performed any surveillance or control of the production process.
- The manufacturer shall ensure the conformity of subsequent production items with the certified type.
- Changes that may affect the conformity with the certification requirements may make the certification of the certificate validity dependent on the evidence as for the assessment of requirements under which the certificate has been assessed, or as an additional evaluation.
- The holder of this certificate must keep the conditions specified in the General Rules for Product Certification, which are freely available at www.tsu.sk
