not speak. Who should I contact for help? A guide for parents about delayed speech development.

CAMMAN ANNING

We work with children with developmental problems:

- Speech disorders
- Communication disorders
- Behavioral disorders
- Intellectual disabilities

Age of children is from 0 to 14.

More than **6,000** children have been helped by our great specialists for **over 10 years of the Center's work**!

We have approximately 100 children on remedial therapy at the same time.

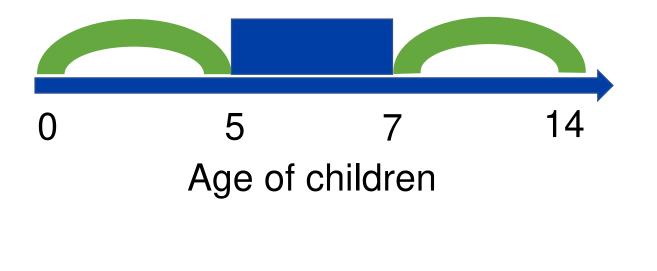

The state and Govorusha

We work with children of 0-5 and 7-14, that is where the state can do very little while the need is extremely high.

Our team

- speech therapists
- special education teachers
- psychologists

- 6. Individual sessions with a Special Education Teacher (ISED);
- 7. Individual sessions with a Psychologist (IP);
 - 8. Primary Consultation (PC).

Project implementation stages

Stage I: Preparation for opening (from 1 to 3 months)

- Searching for the premises: densely populated place with close public transport stops; - ground floor, commercial premises in a multi-storey building - large hall, two isolated rooms, bathroom and a utility room. - 70 to 80 square meters.
- 2. Search, selection and training of personnel.
- 3. Renovation and furnishing of the premises.
- 4. Events to promote the opening of the Center.

Stages of project implementation

Stage II: Opening of the Center and launching its work (from 3 to 5 months after opening)

- 1. Active promotion of the Center's Programs both by open doors events and discount system.
- 2. Creating a flow of people who want to learn about the Center's services and are ready to pass the PC.
- 3. Building up administrative procedures of the Center.
- 4. Training of the Center's specialists.

Stages of project implementation

Stage III: Bring the Center to the payback (from 4 to 6 months after opening)

The duration of this stage depends on:

- the time the Center is opened;
- the seasonality of demand for services;
- achieving targets on previous stages.

Stages of project implementation

Stage IV: Optimization of the Center's operation and achievement of profitability targets (from 6 to 8 months after opening).

The main task of the stage is to prevent poor results of the Center's activity and, at the same time, to achieve an optimal balance of business processes and the center's costs.
