A UNIQUE FRANCHISE OPPORTUNITY IN AFRICA

Partner with the global market leader of the flexible working industry

Message from Mark Dixon, founder and CEO of IWG plc

When I first launched my pioneering workspace business more than 30 years ago, I could not possibly have known it would grow to become the global phenomenon it is today. I did, however, realise that I was onto something big.

Back then, the world was crying out for more flexible working options. I saw the opportunity to provide professional, contemporary workspaces that would offer people the choice and flexibility they were looking for – and that would make a positive difference to the customers and communities we served.

In the years that have followed, I and my colleagues have worked tirelessly to fine-tune our business model, creating a platform that unlocks productivity and enables millions of individuals and businesses around the world to have a great day at work.

With global demand for flexible working options now growing at an exponential rate, I feel sure that we are approaching another turning point in the workspace revolution – and I am delighted to be able to offer other driven, ambitious entrepreneurs the opportunity to join us at this key moment and capitalise on the explosive growth of our sector by leveraging our proven business model and scale.

I hope you sense the untapped potential of the market as strongly as I do, and look forward to welcoming you as a franchise partner of IWG.

OUR HISTORY

1989 was the year visionary entrepreneur Mark Dixon set about revolutionising the world of work, launching the pioneering Regus Group from his base in Brussels, Belgium.

Mark remains CEO to this day, while the business itself has grown to become the world's number one provider of flexible workspace.

In the intervening years, and in response to changing market dynamics and customer demand, new brands have been added to the business through acquisition and organic growth, culminating in the creation of parent company, IWG, in 2016.

IWG now employs **10,000 people globally** and is listed on the London Stock Exchange (LSE: IWG).

The company manages over **5m SQM** of space in **120+ countries** around the world, and helps more than **2.5 million** people and their businesses to work more productively.

In order to accelerate the rollout of a truly global network of flexible workspace, IWG launched the current franchise programme in 2019.

One year later, IWG officially welcomed its 30th franchise partner, operating across 26 countries with 250+ franchise locations worldwide – delivering a great day at work to more people every day.

2000

Regus goes public with IPO on the London Stock Exchange.

2011

In June of that year passes the 900,000 customer mark.

2016

Secondly, IWG is the world's leader in flexible workspace: we have confidence in their business model. Thirdly, the return on investment is crucial.
