MindHub

WHAT you need to know

NO NEED

for previous
coding experience

Our comprehensive training and franchise Partner manual will equip you with all necessary skills to successfully run a thriving business.

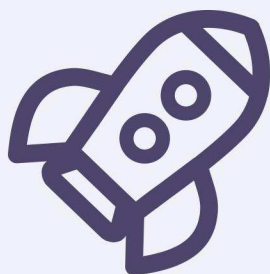

An incomparable **LOW INVESTMENT** required

WHY exactly our franchise and model:

Become an impactful and respected member of your society

Pave the way to success for future generations

Emphasize equally the development of vital social and analytical skills in the kids

Why are we successful?

- 1 Parents are happy that their kids are engaged, entertained but most of all – enriched.
- 2 Kids enjoy it – the only extracurricular activity that feels more like fun than studying.

We make sure kids never get bored by closely monitoring individual progress and adjusting our curriculum according to the personal learning pace.

Each module concludes by creating a **team-oriented** project, showcasing the acquired knowledge.

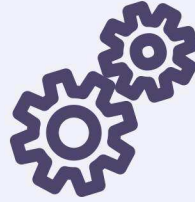

A place to create **long-lasting friendships**, formed on the grounds of common hunger for knowledge.

What our partners get?

A proven successful model

Benefit from our extensive knowledge gained through engaging and educating thousands of young minds.

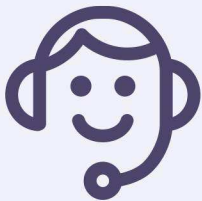

Custom made CRM system

Our state of the art CRM system would ensure that you focus on business rather than getting distracted by boring daily tasks.

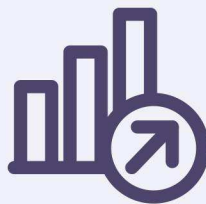

A tailor made curriculum

You will receive our constantly improving state-of-the-art program, focused on teaching through engagement in fun activities.

Sales and customer service support

You can count on our dedicated franchisee support team as well as our comprehensive Partner Manual.

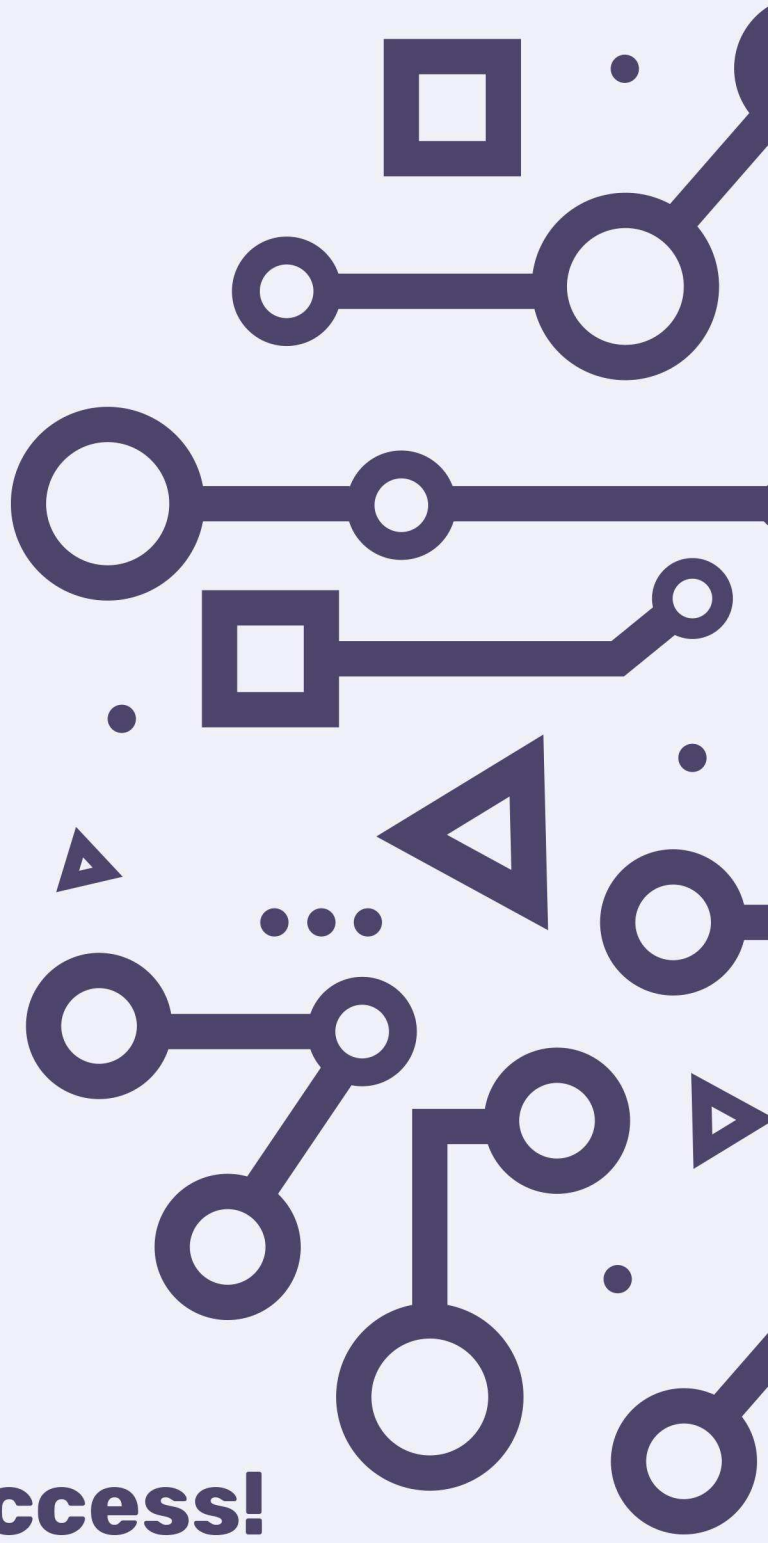

Constantly rising demand

More than 9 out of 10 parents would like their kids to learn how to code.

Unprecedentedly quick rate of return

Tapping into a constantly growing but fragmented market, we'll equip you with all necessary tools to thrive.

Paving ways to success!
