Socially significant project

# ECOSHLUZ UNIT

**100%**  
**NATURAL**

AND ENVIRONMENTALLY FRIENDLY SOLUTION

**99,9% KILLS:**

bacteria, viruses, fungus, including coronaviru

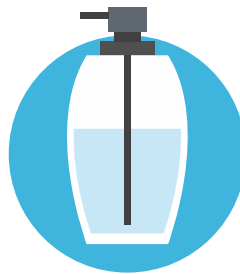

# SOCIAL PROTECTION

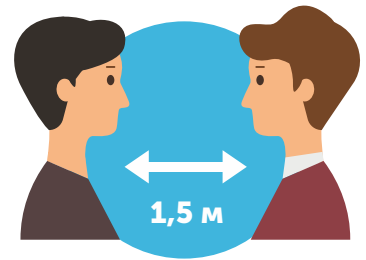

Currently the enterprises throughout Russia prevent the spread of COVID-19 by means of:

face masks

antiseptic solutions

social distancing

We have developed an efficient method to substantially reduce the risk of spreading viruses by using our proprietary **ECOSHLUZ** unit.

# HOW IT WORKS

1. Measure your temperature with a built-in medical thermometer.
2. When you enter a booth, a motion sensor is triggered.
3. Supply of disinfectant solution to fog nozzles is activated.
4. Disinfection is completed within two seconds.

# OPERATION

Possibility to work in the draught

Does not need assembly at site

Low weight, 93 kg only

Temperature measurement

Disinfection cycle lasts two seconds only

Temperature measurement

No-touch hand sanitizer

## AREAS OF APPLICATION

Thanks to its depth of 600 mm the EcoShluz can be installed at entrance/exit areas and sites of:

Enterprises

Healthcare settings,  
clinics and hospitals

Government institutions

Construction sites

Railway stations and airport

Banks

**AND OTHER BUILDINGS WITH ENTRANCE SPACE**

# ECOSHLUZ DIMENSION

# DISINFECTANT SOLUTION

The disinfectant solution cleans and disinfects any surfaces against bacteria, viruses and other microbes. It possesses an antimicrobial activity against sanitary indicator and opportunistic microorganisms, as well as algicidal activity and property of flocculating.

The solution is odor free, which allows use by allergy-prone people and children.

## Wide range of applicatio

The disinfectant can be used for numerous applications: from water disinfection to sanitizing various surfaces and items.

## Low consumption

One liter of disinfectant = 2 000 liters of disinfectant solution.

## Safe for surface coatings

The disinfectant does not damage the treated surfaces and items, does not bleach fabric and does not trigger corrosion.

## Odor free

The disinfectant does not have any unpleasant odor, allowing application in presence of allergy-prone people and children.

## Safety Data Sheet

The disinfectant has successfully passed all tests and possesses Certificate of registration by RF Rospotrebnadzor.
